

Horndale County Infant and Nursery School has a new mobile app which is free to use!

It has been designed to keep you well informed about your child's education and life in general at school, and to help cut down on paper and ink consumption. You will never lose a letter or reply slip again!

We will post school news, events, newsletters, curriculum information on the app and will use it to send important messages.

So, whether you are out and about with your phone or at home with access to a tablet, you will always have a quick and convenient way to find key information or simply browse.

If you have an Apple or Android phone and/or tablet, you can download via :-

or

Search for *Horndale Infant and Nursery School*. You may download the app onto multiple devices but will need to install separately on each one.

Visit the Settings page reached via the 'More' tile on the Home page and turn on the class group/s (channels) your child/ren is in. The app will then alert you to relevant messages in these categories.

Please leave the Urgent alerts category turned on as the school will send out messages to everyone about urgent matters. This could be holiday dates, bad weather closures, etc.

You will also need to complete the Parent Registration form which can be reached by the More tile.

You can complete reply slips on the app. At the moment we have sent out via the app a letter to Y2 parents/carers regarding a forthcoming Gymnastic After School Club. Parents/carers are able to register their child's interest by completing the form and submitting it.

There is also a form to complete if you change your contact details, or if your child is absent from school.

Please contact Mrs Oughton in the school office if you need any help with this.
